

METER INSTALLATION FEES

1. Time and materials that are incurred by the Company on each meter set will be job costed out for each individual installation. The service connection fee paid is only for production capacity reserve that is allocated to each residential service.
2. The customer is required to have an approved contractor install their meter. They will be responsible for install costs, including County required fees. All work must be inspected by NMWC for quality and workmanship and approved before being accepted.
3. An example of a typical installation bill would be:

A. 8" saddle	\$	40.93
B. Curb Stop		42.00
C. Corp Stop		30.20
D. 2 Instatites @ \$9.00 ea		18.00
E. Service Pipe		20.00
F. NMWC Inspection Fee		<u>150.00</u>
TOTAL	\$	301.13

4. **The \$350.00 deposit will be due and payable before the meter installation is proceeded upon.** Any actual amounts over the \$350.00 deposit must be paid as incurred to continue water service. Any amounts less than the deposit will be reimbursed within two weeks after conclusion of Installation. The above terms are agreed and understood.
